

Summer 2026

Technology
Books for
Children 

NEWSLETTER

Welcome to our first newsletter

We are proud to introduce the Technology Books for Children newsletter, where a passion for reading meets the digital age. Each edition will bring you book recommendations, practical tips and opportunities to help children and young people explore the world of tech in a fun and meaningful way.

Our impact

We are making a meaningful impact:

- Supporting children and families to understand technology
- Highlighting engaging and inclusive tech-focused books
- Inspiring curiosity and confidence in tech
- Working with schools, educators and communities

Why tech literacy matters!

Technology is shaping every part of our daily lives, from how we communicate to how we learn and work. At Technology Books for Children, we help children and families understand the digital world through engaging, accessible books that encourage curiosity and build confidence.

Summer Reading Challenge

We are inviting children and families to share their joy of tech and reading. If your child has enjoyed a tech-themed book, we would love to feature them.

Simply send us:

- The book title
- A photo with them reading

Let's celebrate curiosity, creativity and confidence in technology.

Email: info@technologybooksforchildren.org

Top tips for families

- Talk about how technology is used in everyday life
- Encourage children to ask questions about apps and devices
- Balance screen time with creative, offline activities
- Use books to explore technology together
- Talk about online safety in simple terms, such as keeping personal information private
- Encourage children to spot how technology solves real-world problems (for example in shops, transport or healthcare)

Book Spotlight

This engaging book follows the story of Pariza and introduces children to data visualisation in a fun and accessible way.

With clear explanations and interactive activities, it encourages children to explore data creatively and confidently.

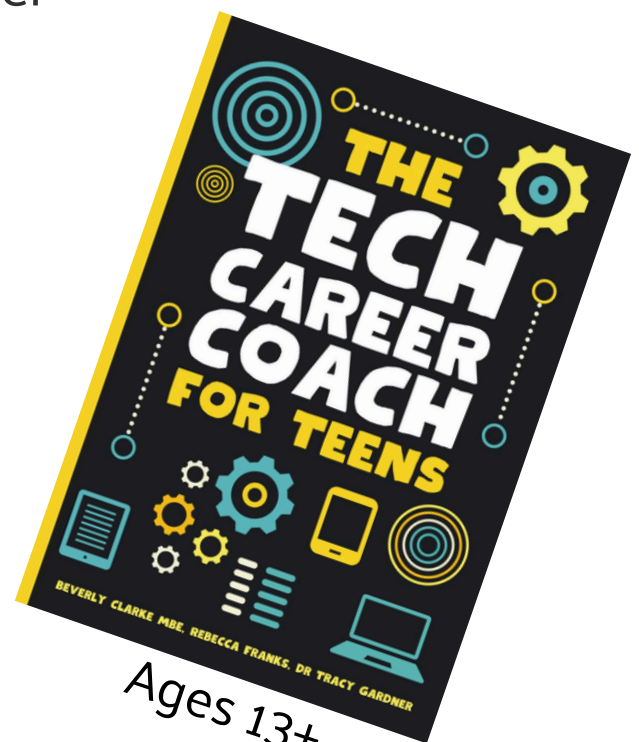

Perfect for both independent learning and family activities.

Get involved

You can support our work by:

- Recommending tech-themed texts to us
- Making us your company charity/donating to us
- Sharing this newsletter

Book Spotlight

A fantastic introduction to online safety for children. Through a relatable story, it helps young readers understand:

- How to search safely online
- Why it is important to think before clicking
- How to make smart choices when using the internet

AI Awareness Day - 4 June 2026

AI Awareness Day is a national day of celebration and it is a great opportunity to start conversations with children about artificial intelligence. For example:

- What is AI?
- How is it used in everyday life?
- What opportunities does it create for the future?

Through books and discussion, we can help children understand and engage with AI in a safe and informed way.

 Explore AI-related books and resources on our website

Fun facts about tech

AI can learn to recognise pictures by studying thousands of images – just like how we learn by practising!

Find the right tech book for every child

Looking for the perfect book to help a child or young person understand technology?

Our website features a searchable book directory, making it easy to find age-appropriate, engaging and educational technology books.

You can explore books by:

- Age group
- Topic (AI, online safety, robotics and more)

Whether you are a parent, teacher or carer, our curated collection helps you choose books with confidence.

Visit our website to explore the book directory

Fun facts about tech

Robots can be chefs too! There are robots that can cook food, flip burgers, and even make pizzas all by themselves!

From our founder

Our mission is simple: to inspire children and young people to explore technology with confidence through stories, books and real-world understanding. Thank you for being part of our growing community.

With thanks

A massive thank you to Oli Peters from Chelmsford College who planned this newsletter in the initial stages, while on work experience with us.

Next issue due Autumn 2026
